

AG WORKER ACCESS PARTNER PROFILE

Purpose: The purpose of this tool is to assist you in identifying potential partners that can support your health center's efforts to increase access to care for Migratory and Seasonal Agricultural workers and their families.

Instructions: Think of all the systems in place that impact the individual, family or community. Consider those that address patients' SDOH, and those that can be community partners in your outreach efforts. For each organization, gather as much information as possible to document.

This information can later be used to create a Community Asset Map and/or a Community Asset Database, in order to have community resources available to refer patients to.

Organization Name			
Address			
City			
State		Zip	
Web Site		Main Phone	
Contact Person
