

Let's Talk About Alcohol

Every night after work, Mateo and his friends have drinks together. Sometimes his friends want him to drink more than he would like to drink. Mateo drinks because he wants to fit in. He knows that drinking a lot is causing problems at work. He is not able to work as hard as he used to. He is worried that he might lose his job. Mateo wants to drink less but he is not sure how.

What is ONE drink?

Think about a can of beer and a shot of tequila. These drinks are different sizes. You may think that you are drinking more *alcohol* when you have a beer than when you have a shot of tequila. Both of them have the same amount of alcohol. They both count as one drink. Each drawing below is ONE drink.

1 beer
12 ounces

1 glass of wine
5 ounces

1 shot of whiskey,
rum, or tequila
1.5 ounces

How do I know if I am drinking too much?

It is important to recognize if you are drinking too much alcohol to avoid any problems it can cause. Here is a table that shows what "drinking too much" is.

This is what "drinking too much" in ONE occasion is:

For men, 5 or more drinks within 2-3 hours

For women, 4 or more drinks within 2-3 hours

This is what "drinking too much" in ONE Week is:

For men, 15 or more drinks per week

For women, 8 or more drinks per week

H

You should NOT drink alcohol...

If you are a pregnant woman

If you are under 21 years of age

How can drinking too much affect you?

Alcohol abuse is when drinking too much alcohol becomes a habit. It can cause:

- problems at home, work, or school
- health problems such as liver disease, heart disease, depression, stroke, cancer, and birth defects
- injuries such as car accidents, drownings, burns and falls

How do I know if I have a drinking problem?

You may have a drinking problem if you:

- drink more or longer than you want
- try to cut down or stop drinking but you cannot
- keep drinking even if it causes problems at work, school or in your relationships
- drink when driving or using machines
- drink even if you have health, family, or legal problems
- have trouble sleeping, feel nauseous, or sweat when the effect of the alcohol goes away

If you have any of these symptoms, see your doctor right away. Make a plan so you can drink less (*drinking in moderation*) or stop drinking.

What can I do to drink less?

- **Make a plan.** Decide which days you will drink and how many drinks you will have.
- **Do not drink every day.**
- **Ask others to help you.** Your family, friends or coworkers can give you support.
- **Don't keep alcohol around the house.** Spend time in places where there is no alcohol.
- **Do other activities in your free time that you enjoy** instead of drinking.
- **Learn to say NO** when you do not want to drink.

Listening Activity

Listening Activity

Purpose: To practice listening comprehension

Time: 5 minutes

1. Tell your students that in this activity they will practice their listening comprehension skills.
2. State that you are going to read five different sentences twice.
3. Let them know that after you finish reading the sentence for the second time, they will need to fill in the blank.
4. At the end, check the students' answers to make sure they are correct. If some students do not have the right answer, invite other students to participate in the discussion until the information is clear.

Listen and Fill in the Blank

Sentence	Answer
1. When you drink too much, you may have _____ in your relationships, with your health, and at work or school.	problems
2. _____ is the ingredient in tequila that can make you feel drunk when you drink too much of it.	Alcohol
3. Drinking too much can put you at risk for _____ like car accidents or falls.	injuries or problems
4. To drink less, you should spend your time doing things you _____ that do not include alcohol.	enjoy or like
5. _____ or not drinking at all reduces the health problems that alcohol can cause.	Drinking in moderation
